

BBI Services

# The Lean Construction Practitioner Programme

*Accelerating performance improvement through experiential practical learning and application*

The **ONLY** provider of The Lean Competency System for the built environment

## You need to...

- Do more for less
- Develop teams and improvement capabilities
- Engage and motivate your people to fix the problems that frustrate them
- Drive your efficiency and productivity up, and improve programme certainty

Using Lean principles as an enabler, BBI Services can support you in creating a culture of continuous improvement, through our unique Lean Construction Practitioner Programme which delivers an excellent return on investment (ROI).

## Unique training for the built environment

<p>LEARN HOW TO </p>	<p>DELIVER IMMEDIATE RESULTS </p>	<p>ACCREDITED TRAINING </p>
<ul style="list-style-type: none"> <li>• Improve productivity</li> <li>• Improve quality</li> <li>• Reduce cost</li> <li>• Create programme certainty and deliver on time</li> <li>• Improve health and safety</li> </ul>	<p><b>Immediate return on investment!</b> Delegates deliver a workplace project, with coaching and support, bringing tangible benefits and improvements into your business. These projects are proven to deliver efficiencies, reduce cost and risk and increase productivity.</p>	<p>Level 1 Certificate of Lean Competency. Training accredited by Cardiff University. The only University accredited framework to qualify individuals based on their knowledge and practical application of Lean.</p>

With a class size of 8-10, delegates have the opportunity to support each other in using the lean tools and techniques, creating collaboration and best practice within your organisation.

"Pro-active, challenging, practical involvement with a real project delivery. Excellent trainer delivery each day."

"I believe this remote method of delivery was very good and possibly preferred."

Delivered via our unique web based training simulation, onsite or remotely with expert facilitation

## Experiential facilitated learning

We're able to reach people anywhere through the online platform, allowing us to up-scale our delivery and helping to save on travel costs. Delegates can interact instantly via tablet or desktop. We deliver learning that maintains personal interactions, team working and interactive experience needed for engaging, impactful, experiential training.

We utilise the latest collaborative working platforms, enabling team-based problem solving and best practice sharing, along with practical application of Lean tools and techniques.

"Allowed me to look at things differently. Focus on value, remove waste. It has helped open my eyes to see areas of improvements."
